Experience

Freelance Developer

Easy Lab Company | Remote

- Completed a contracted project for Easy Lab, meeting all technical and functional requirements.

projects

<https://eshop-opal.vercel.app/>

- Developed using **ReactJS** and **Tailwind CSS**.
- Utilized libraries to add engaging animations, enhancing user experience.
- Features an interactive e-commerce interface with a focus on usability.

<https://hoo-bank-sooty.vercel.app/>

- Built with **ReactJS** and **Tailwind CSS**.
- Features a modern UI with reusable components.
- Fully responsive for desktop, tablet, and mobile.

<https://easyfast.vercel.app/>

A modern, responsive dashboard built using **ReactJS** and **Tailwind CSS** for managing subscriptions, users, and settings for a web-based platform. Key features include:

- **ReactJS Integration:** Utilizes React components for dynamic rendering and efficient state management.
- **Tailwind CSS:** Ensures fast and consistent styling with a mobile-first design approach.
- **Responsive Design:** Optimized for all devices, ensuring a seamless experience.
- **Focus on Usability:** Prioritizes a user-friendly layout and smooth navigation.

<https://react-site-sigma.vercel.app/>

A dynamic web application built with React showcasing various features and components that enhance user interaction and experience.

Education
